BDU / Technology Infrastructure Advisory Committee
Meeting Date: Nov 7, 2013, 4PM
Location: Bloomington City Hall McCloskey Room

Board Attendance: Dennis Cromwell, Matt Davy, Mark McMath, Mike Trotzke
Staff Attendance: Rick Dietz
Guest Attendance: Dr. Mike Sullivan

Dr. Sullivan
- Project with St. Jude: establishing a national network for cancer centers, setting up virtual organization for policy and data sharing.
- Big Data project for genomics and sequencing, massive collaboration including Poland, China, India, US
- Trends: connecting/federating clouds, adoption of rackspace "open stacks", working to make clouds interoperable and able to handle big data and data-intensive science
- Net+ (net plus): new services on top of Internet 2 infrastructure
- Gov't shutdown screwed up a lot of things. 200 review panels at NIH were cancelled, setting back important medical research projects.

Rick Dietz reported on CoB activities:
- GSoC 2013: Reported on GSOC Summit
- Code for America 2014: No go for 2014
- Bloomington Startup Weekend is Nov 15,16,17 at Cityhall. RD and other city staff will be mentoring and facilitating the event.

Dennis Cromwell
- Kuali time go live is next weekend.
- IU email policy is for user to flag any email that needs to be kept, otherwise it is automatically deleted after a period of time.

Mike Trotzke
- Combine 2014: focussing on IU Alumni this year.
- Sproutbox is reinvesting in 1rst generation companies. Working to scale them up.
